Attention: Mark J. Steger, Esq.
McBride, Baker & Coles
500 West Madison Street
40th Floor
Chicago, Illinois 60661-2511

Dear Mark:

- 1) Raghu Nagam of TN & Associates (U.S. EPA's contractor) and I are both available on Wednesday (11/29/2000) and Thursday (11/30/2000).
- 2) If Tom Krueger needs to be present, then the best day and time for the meeting would be Thursday morning (11/30/2000).
- 3) Please note that lead will not be deleted from further investigation or consideration in this project.
- 4) I will get back to Mr. Jon Jackson regarding whether or not a contractor other than Carlson Environmental could follow the U.S. EPA approved Quality Assurance Project Plan, without having to resubmit, and go through all of the approvals.
- 5) Finally, I believe that the U.S. EPA is also awaiting receipt of a letter requesting an extension of time to the schedule provided in the Unilateral Administrative Order (UAO), in order to accommodate additional field work to characterize the nature and extent of the contamination at the Site.

If you have any questions, please contact me at your earliest convenience.
